FAN-DRIVEN '80S SCI-FI DOCUMENTARY LAUNCHES INNOVATIVE KICKSTARTER CAMPAIGN

Unique Discord Platform Community Has Amplified Fan Experience Ahead of April 21 Project Fundraising Launch

LOS ANGELES, CA, April 21 — CreatorVC announces the fundraising launch of its new documentary about '80s sci-fi films, *In Search of Tomorrow*. Coinciding with this initiative will be the introduction of an unprecedented, fan-driven online interactive community.

In Search of Tomorrow's [Kickstarter fundraising campaign](#) will begin on April 21. Ahead of that launch, CreatorVC is seeking passionate sci-fi and genre fans to join its new experiential social community on Discord – offering live Q&As, group-watch events, a crowdsourcing of ideas and, most importantly, relationship-building. The goal is to deliver a truly unique approach to the filmmaking process in which fans are driving the conversation, and hopefully bring people together at a time where online communication is as vital as ever.

In Search of Tomorrow will be an extensive, nostalgic journey through '80s sci-fi films – exploring their impact year-by-year and their relevance today – told by the iconic artists who made them and by those who were inspired to turn their visions into reality. Pre-production is currently underway, following on the strength of CreatorVC's successful crowdfunding campaign and release of the '80s horror documentary *In Search of Darkness*, one of the most successful indie docs in history which will receive an exclusive streaming release via Shudder later in 2020.

Helmed by *In Search of Darkness* director David Weiner, *In Search of Tomorrow* has already lined up an impressive roster of interview talent that includes **Nancy Allen** (*RoboCop*), **John Badham** (*WarGames*, *Short Circuit*), **Shane Black** (*Predator*), **Joseph Bottoms** (*The Black Hole*, *The Intruder Within*), **Clancy Brown** (*Highlander*, *Buckaroo Banzai*), **John Carpenter** (*The Thing*, *Escape From NY*), **Joe Dante** (*Innerspace*, *Gremlins*), **Bill Duke** (*Predator*), **Alan Dean Foster** (*Star Trek*, *Star Wars*, *Aliens*),

Bob Gale (*Back to the Future* trilogy), **Lance Guest** (*The Last Starfighter*), **Ernie Hudson** (*Ghostbusters*), **Peter Hyams** (*Outland*, 2010), **Sam J. Jones** (*Flash Gordon*), **Walter Koenig** (*Star Trek*), **Nicholas Meyer** (*Star Trek*), **Dennis Muren** (*Star Wars* trilogy, ILM), **Kerry O'Quinn** (*Starlog Magazine*), **Catherine Mary Stewart** (*The Last Starfighter*), **Henry Thomas** (*E.T. the Extra-Terrestrial*), **Tim Thomerson** (*Trancers*, *Cherry 2000*), **Douglas Trumbull** (*Blade Runner*, *Brainstorm*), **Paul Verhoeven** (*RoboCop*, *Total Recall*), **Dee Wallace** (*E.T. the Extra-Terrestrial*), **Wil Wheaton** (*Star Trek*), **Alex Winter** (*Bill & Ted's Excellent Adventure*) and **Sean Young** (*Blade Runner*, *Dune*).

The growing cast of talent will ultimately feature exclusive interviews with more than 50 icons, artists, experts and influencers. (View the [In Search of Tomorrow trailer](#).)

Running parallel to the production of the documentary, the *In Search of Tomorrow* [Discord community](#) is inspired by the campaign, launch and post-launch activities for *In Search of Darkness*, which provoked an immensely rewarding response from fans and backers – many of whom immediately congregated into fan groups and have enjoyed repeat viewings of the film. *In Search of Tomorrow* aims to build on this, making our enthusiastic fan collective a unique part of CreatorVC's identity moving forward.

A few words on IN SEARCH OF TOMORROW from director David Weiner:

"IN SEARCH OF TOMORROW will take viewers on a year-by-year deep dive into the many awe-inspiring worlds of '80s Sci-Fi movies, from the alien landscapes of distant planets to the unexpected secrets of our own terra firma to the dystopian visions of near and far future. An entertaining study of '80s genre filmmaking, IN SEARCH OF TOMORROW will tap into that childlike wonder that we all felt while first watching these movies, how we all felt deep inside, all the while deconstructing and recontextualizing their impact for today's audiences."

From CreatorVC CEO and executive producer, Robin Block:

"This is the evolution of fandom, the rising up of fans to celebrate the work that has impacted their lives. What we're trying to do is to bring people together who have a shared interest, to bring some comfort back in a time when the world's gone crazy. A major goal of IN SEARCH OF TOMORROW is to take people back to their childhood cinema experience and to re-examine and understand it in brand new ways. The community we are building in advance of our fundraising campaign is a place of safety, where opinions are welcomed and love of the genre is paramount."

About CreatorVC: We are an independent producer of community-powered entertainment: long-form factual content that is funded, inspired, and shaped by a dedicated community of fans.
